Tips

Buy the highest quality smoked turkey breast from the deli counter rather than pre-packaged slices for better texture and flavor.

Cut the turkey into uniform pieces to ensure even browning and cooking throughout.

Don't overcrowd the pan - cook in batches if necessary to maintain proper browning temperature.

Add the dill at the end of cooking to preserve its delicate flavor and bright color.

Use unsalted butter to control the sodium content, as smoked turkey can already be quite salty.

Serve immediately while warm for the best taste and texture experience.

Save any leftover herb-infused butter in the pan to drizzle over the finished dish for extra flavor.

Taste and adjust seasoning carefully, as smoked turkey varies in saltiness between brands.
